

# MULTI CYCLONE PLUS

## A revolution in pool filtration

MultiCyclone Plus combines centrifugal and cartridge filtration into one streamlined housing, creating an ultra compact filtration system.

- Dual stage filtration
- Minimal maintenance
- Save water and energy
- 40 ft<sup>2</sup> pleated filter cartridge

### Dual stage filtration

Incoming water tangentially enters its multiple hydro cyclones, generating a strong centrifugal effect. Approximately 80% of the incoming dirt load is spiralled down to its clear sediment chamber. The outgoing water is finally polished via its inbuilt cartridge filter, producing crystal clear water.

### Simple maintenance

MultiCyclone Plus's sediment chamber is easily cleaned by opening its purge valve. Only 15 litres of water is discharged.

### Extended filter capacity

The MultiCyclone Plus's centrifugal section pre-filters up to 80% of the incoming dirt load before it reaches the filter cartridge, magnifying the capacity of its 40 ft<sup>2</sup> filter cartridge by up to 5 times. MultiCyclone Plus has a filtration capacity equivalent to a 200 ft<sup>2</sup> cartridge filter or a 24" sand filter.

### Ultra compact filtration

MultiCyclone Plus's streamlined design means the entire filtration system can be installed vertically, reducing the footprint of the equipment pad. Additionally, minimal pipework reduces the filtration system's overall head loss.

MultiCyclone Plus is covered by a 2 year warranty. Commercial installations are covered by a 1 year warranty.

	MultiCyclone 12 Plus	MultiCyclone 16 Plus
Connection Ports	1.5"	2"
Minimum Flow	2.4m <sup>3</sup> /hr / 11gpm	3m <sup>3</sup> /hr / 13gpm
Maximum Flow	9.1m <sup>3</sup> /hr / 40gpm	13.5m <sup>3</sup> /hr / 60gpm
Filter Area	3.7m <sup>2</sup> / 40ft <sup>2</sup>	3.7m <sup>2</sup> / 40ft <sup>2</sup>
Max Pressure	50psi	50psi
Max Pool Size	50m <sup>3</sup>	80m <sup>3</sup>
